

My name is Hamadi Kichawele Kisato. I am a BSc. Communication and Public Relations student at the Moi University Coast-Campus. Holding a Diploma in Mass communication. Undugu Mentorship has been the guardian of my achievements. They found me in form two the year 2008 in Dr. Aggrey High School in Wundanyi-Taita Taveta County. A naïve young boy I was trying to way my options in career and dreams. I had inadequate vision and focus. They mentored us. I remember I met with my dream career the day I had Eleen Wakesho one of the Directors, talk about what she was doing then. The talk molded me made me desire to reach the heights that I saw above me. That talk made me realize the communication and marketing consultant you read about now.

Later after doing my KCSE, I decided to join the organization as a peer mentor on voluntary basis. Wow! That is the only expression I have for the experience of being part of the group. I learnt the art of team work and above all I realized my gifts and talents in photography and motivational speaking. God brought me to Undugu and made me realize what lies in the hearts of the mentors that volunteer in the organization.

Thank you. God bless you.
